

Computer Rentals

Renting a laptop or desktop computer makes sense when you have an event where you only need it for a few days (or weeks). Purchasing and disposing of computers after your event is not only time-consuming, but can also be very costly.

A laptop rental from GavCom Media Productions provides you with the latest technology, backed up by qualified staff to help you with support for registration desks, training sessions, or tradeshow.

Contact us today to learn how we can incorporate a computer rental into your next event. We can be reached at info@gcmp.ca or 416.746.5050. We look forward to speaking with you!
